

Dear Parents,

**Circular on Student Chiropractic Care Programme**

For the first time, the Department of Health provides chiropractic services to students who are about ten years old or in Primary 5. Among the students who participated in the health service survey in the 2017/18 school year, about 228,000 students had undergone a chiropractic assessment. There are about 34,600 (15.2%) students in the "Bent" category. The spine plays an important role in the well-being of children. We suggest you have your children checked by Chiropractors regularly.

Our school has participated in the Community Chest Straighten Up School Scheme organized by the Children's Chiropractic Foundation. We highly recommend your children get their spine checked through participating in the Student Chiropractic Care Programme. If your children have symptoms such as neck fatigue, headache, foot ache, neck pain, insomnia, or have ever been diagnosed as having scoliosis, please do not hesitate to participate in the programme. The details are as follows:

Content	<ul style="list-style-type: none"> <li>· Postural check-up (Check items include: Round Back, High / Low Shoulder, Forward Head Posture and Forward Pelvic Tilt.)</li> <li>· Learning spinal health exercise</li> <li>· Seminar on spinal health and protection</li> </ul>
